Truth Ambassador 2027

Submission and voting guide

Version 1.3 / 1 November 2026 / 3 jury + 2 audience nominations

1. How to submit a candidate

Submissions and voting: 1 November 2026, 00:01 - 12 January 2027, 23:59:59, Polish local time. Jury: 13 January. Recipients: 15 January. Participation is free.

Submit yourself or another adult, including someone outside the editorial list of suggestions. That list does not imply nomination, endorsement or agreement to participate.

Prepare the sender's name and email; candidate professional details; country and language; relationship; 800–2500 characters of reasons; and 2–3 works with title, link, date and contribution.

Third-party submission and admission to voting do not require the candidate's written consent or participation confirmation. The editorial team decides admission after reviewing eligibility and work. Candidates may request withdrawal. Do not send identity documents, sensitive data or confidential sources. The website form prepares an email - you must send it. Address: redaktor@truthmagazine.pl. Await the secretariat's receipt confirmation.

2. How to vote - two choices

Sign in with an available provider (LinkedIn; Google once configured), create a TRUTH profile and read the rules. Your profile may stay private. Voting requires adulthood and a provider-verified email. An older session may require signing in again.

Choose an admitted candidate, press Vote and confirm the choice separately. Wait for the recording confirmation. Cast up to two votes for two different people, or use just one. A recorded choice is final.

The same verified email on Google and LinkedIn shares a quota. Changing device or provider or deleting a profile does not grant new votes. Bots, vote buying and quota-evading accounts are prohibited. You may freely share a candidate's link with followers.

The jury selects three nominations. The two audience places go to the highest-supported eligible people outside those three. The jury resolves a tie under published criteria with reasons. No valid votes means no invented support. Nomination does not automatically confer the recipient title.

3. Transparency and contact

During voting you see your choices and remaining quota. After closing we display totals, and after decisions their reasons. Individual readers' choices and juror cards are not public. The pseudonymous voting ledger is removed from 15 April 2027; totals remain.

Report a vote error or documented abuse to redaktor@truthmagazine.pl without disclosing other readers' data. Objections: within 14 days of results; independent review response within 30 days. Privacy: support@truthmagazine.pl. Full conditions are in rules v1.3 at truthmagazine.eu/ambasadorzy-prawdy/.
